

Gen-Eye™

Digital Pipe Locator

With Push Button Depth Finder

Have you ever dug up a flower bed and driveway only to find the problem was somewhere else? Mistakes like these cost time, money, and reputation. And when you find the problem, do you need a shovel – or a backhoe? The Gen-Eye Locator uses high tech digital technology to tell you exactly where the pipe is and how deep, down to the inch. No time-consuming triangulation required. With the push of a button, you can locate cast iron pipe to a depth of 10 ft., and plastic and clay pipe to 20 ft.

No guesswork involved

The Gen-Eye Digital Locator lets you know exactly where the problems are. 100 sensitivity levels let you hone in on the transmitter's signal. The LCD display panel produces a clear digital readout, as well as a graphic display and an audible tone. It's faster and more precise than analog locators.

The Gen-Eye Locator lets you locate almost anything underground with its built-in four-way signal finder. You can find the Gen-Eye camera even when it's deep inside cast iron pipe. When you turn on the digital locator, it looks for the 512 Hz or 874 Hz signal transmitted from Gen-Eye cameras.

Switch the locator to 60 Hz, and you can locate underground power lines before you start digging. Switch again, and you can locate water lines, gas lines, fiber optic cables, and CATV cables with the optional 65 KHz transmitter. All with more power and dynamic range than any other locator available.

Gen-Eye Locator Specifications:

Operating Modes/Frequency	Camera Locator/512 Hz and 874 Hz. Pipe Locator/65 KHz. Power Line Locator/60 Hz.
Dynamic Range	96 db.
Depth Range	20 ft. (6m) in polyethylene and clay pipe. 10 ft. (3m) in cast iron pipe.
Indicators	Backlit LCD digital display with signal strength read-out, graphic display, audible tone, digital depth indicator, battery status.
Locator Weight	4.5 lbs. (2 kg).
Locator Batteries	6 x C (50 hrs. of life at 68°F).

Gen-Eye™

Transmitter and Sondes

Gen-Eye™ Transmitter

The Gen-Eye transmitter makes pipe and utility location easier. It energizes the pipe with a powerful 65 KHz signal that radiates through the ground to the locator above. Simply attach the transmitter leads to both ends of the pipe, or if the other end of the pipe is not accessible, use the ground stake to complete the circuit.

Catalog # G3-180 Pipe Locator/Transmitter Combination

Gen-Eye Transmitter Specifications:

Operating Mode/Frequency	Pipe Locator/65 KHz.
Output	1 Watt.
Transmitter Weight	5 lbs. (2.3 kg).
Transmitter Batteries	6 x D (150 hrs. of life at 68°F).

Sonde 10 (actual Size)

Sonde 20 (actual Size)

Gen-Eye™ Sondes

Gen-Eye Sondes are a great tool for pipe location in cast iron, clay, or plastic lines. Easier than locating an energized line, you simply locate the pinpoint frequency of the Sonde. Attach the sonde to your drain cleaning cable using the spring carrier included. Adapters for other brands are available. The carrier protects the Sonde as it travels down the line. Or you can tape it to jet hose, push-rods, or other devices that don't subject it to heavy abuse.

Gen-Eye Sonde Specifications:

Sonde 10 Range	Up to 10 ft. through cast iron or 15 ft. through clay or plastic lines.
Sonde 20 Range	Up to 20 ft. through cast iron or 30 ft. through clay or plastic lines.
Frequency	512 Hz.
Size	3/4" x 3-1/2".
Battery	One AAA Alkaline.

Spring carrier for Sondes with General coupling. Adapters for other brands available.
