Brass swivel, drag brake, and reel lock, 200 ft. x 3/8" capacity

Weight:

173 lbs. (78 kg)

Dimensions:

25-1/2" L x 28-1/2" W x 42" H
(65 cm x 72 cm x 107 cm)

The J-2900 is an economical alternative to the J-3000. It's lighter and more maneuverable, yet maintains the same pressure and flow rate as the J-3000. It's driven by an 13 hp Honda engine connected directly to a 3000 psi, 4 gallon per minute triplex pump with Vibra-pulse® on demand. A removable 300 ft. capacity hose reel with drag brake, reel lock and brass swivel is mounted on a heavy duty frame with two pneumatic tires. Safety features include a thermal relief valve, along with a back flow check valve and inlet filter. An optional spray wand is available.
