

# Easy Rooter Junior™

A Rugged Machine for 2" thru 3" and Most 4" Lines

Handle folds to take less space in car trunk.

The Easy Rooter Junior drives up to 100 feet of 1/2" cable, using the same heavy-duty motor that we use on the Easy Rooter. The machine rolls on eight inch ball bearing wheels and has a wheel brake to lock the machine in position on the job. A tall folding handle makes it easier to load into a car trunk. The zinc-plated cage can be removed in less than a

minute. The reinforced powder coated steel frame is built to take heavy duty use and abuse. A "roll bar" protects the motor when loading the machine into a car trunk. A ground fault circuit interrupter, air actuated foot pedal, safety slip clutch and instructional video are standard equipment.

## Specifications:

**Weight:** 65 lbs. without cable. (29 kg)

**Capacity:** 100 ft. of 1/2" Flexicore Wire Rope Center Cable.

**Motor:** 1/3 hp heavy duty, capacitor start, thermal overload protection, Forward/Off/Reverse Switch.

**Safety Slip Clutch:** Protects cable and operator.

**Foot Pedal:** Uses air pressure, so there's no electrical contact between pedal and motor.

**Flexicore Cable:** Heavy gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated.

**Power Cord:** 20 ft., 3-wire; equipped with ground fault circuit interrupter.

**Wheels:** 8" Semi-pneumatic tires, with roller bearings.

**Cutter Set:** Arrow Head, 1-1/2" U-Cutter, 2" U-Cutter and Retrieving Tool. Others available.

**Leather Gloves:**

With double-reinforced palm, for hand protection when guiding cable.

**Instructional Video included.**
